

Wood Bonding

Metal Partition

AS-5002 Aqua Bond

Aqua Bond is a high performance construction adhesive specially formulated to bond non-porous substrates, such as Aluminium Composite Panel (ACP) and metal panel. It is also suitable to bond a variety of other common construction materials. It has strong initial grab, superior adhesion, and will not slump on vertical surfaces.

Applications:

Suitable for Aluminium Composite Panel (ACP) and metal panel installations. Ideal for bonding most construction materials: wood, particle board, metal, concrete, fiber-reinforced cement board, ceramics, bricks, flooring panels.

Available colour: Brown

Features:

- ✓ Superior adhesion for all metal substrates
- ✓ Bonds most materials including Aluminium Composite Panel (ACP)
- ✓ Strong initial grab
